

NFER attitude survey - pupils and parents

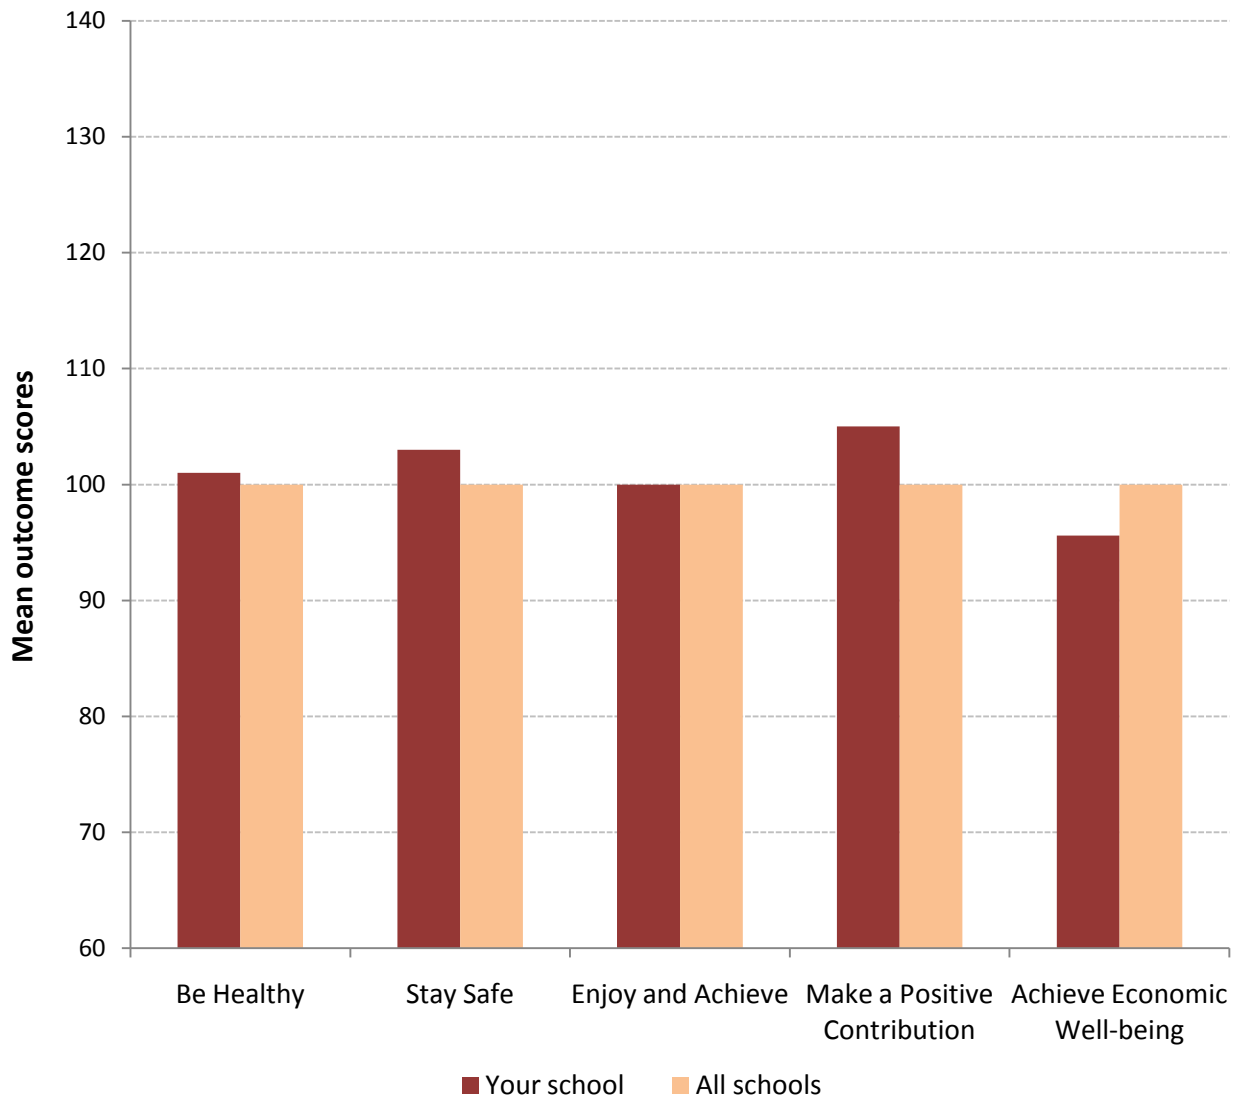

Primary Pupil Survey - Summer 2010

Analysis by outcome area

Views of Pupils at NFER Primary School

No. of pupils responding 110

Outcome score overview

These five outcome areas are measured by five groups of relevant questions in the pupil questionnaire. A pupil's score in an outcome area is calculated by scoring his/her responses in the group of questions relevant to that outcome. Your school's score in an outcome area is the average of all responding pupils in your school.

To aid comparison, the outcome area scores have been standardised so that the national average is 100.

Outcome area score overview

Be Healthy		
% of pupils:	Your school	All schools
At/above average	44	58
Below average	56	42

Stay Safe		
% of pupils:	Your school	All schools
At/above average	38	46
Below average	62	54

Enjoy and Achieve		
% of pupils:	Your school	All schools
At/above average	58	59
Below average	42	41

Make a Positive Contribution		
% of pupils:	Your school	All schools
At/above average	55	57
Below average	45	43

Achieve Economic Well-being		
% of pupils:	Your school	All schools
At/above average	56	63
Below average	44	37

These five outcome areas are measured by five groups of relevant questions in the pupil questionnaire. A pupil's score in an outcome area is calculated by scoring his/her responses in the group of questions relevant to that outcome. To aid comparison, the outcome area scores have been standardised so that the national average is 100.

These tables show the percentage of pupils scoring above or below the national average. Cells are colour coded if your school is significantly different in terms of the percentage of pupils scoring above the national average. Green indicates that significantly more pupils at your school have scored higher than the national average, whilst red indicates the opposite.
