## Evaluation of Pre-employment Vocational Training: Generation UK

### Privacy Notice for Programme Deliverers

---

#### 1 Why are we collecting this data?

The Youth Futures Foundation (YFF) has commissioned the National Foundation for Educational Research (NFER) to undertake an evaluation of Generation UK's pre-employment vocational training (PEVT). Generation UK's mission is to support unemployed people facing barriers to employment into life-changing careers. They achieve this mission through the delivery of skills bootcamps. Skills bootcamps consist of profession-specific training delivered predominantly in live online classrooms, followed by up to six months of job search support and matching with employer partners.

NFER's evaluation will include a preliminary planning and data gathering stage followed by a randomised controlled trial (RCT). The aim of the preliminary stage will be to gain an in-depth understanding of how the programme is delivered and prepare for the RCT. The RCT will explore the effectiveness and outcomes of the skills bootcamps. This privacy notice relates to the preliminary stage which will take place between March and July 2026 and is for Generation UK programme deliverers.

NFER is the data controller for the evaluation and will make decisions about how and what personal data is used for the evaluation. Generation UK are responsible the delivery of the skills bootcamps and for making decisions about how that data is processed. They are the data controller for programme implementation and their privacy notice is available [here](#).

#### 2 What is the legal basis for processing activities?

The legal basis for processing personal data is covered by:

- Article 6 (f) Legitimate interests: the processing is necessary for the data controller's legitimate interests or the legitimate interests of a third party, unless there is a good reason to protect the individual's personal data which overrides those legitimate interests.

A legitimate interest assessment has been undertaken. It demonstrates that it is within NFER's interests in undertaking this evaluation to collect and analyse data on the effectiveness of implementation and outcomes. The evaluation fulfils one of NFER's core business purposes (undertaking research, evaluation, and information activities). It has broader societal benefits and will contribute to improving understanding of skills bootcamps to the benefit of unemployed young people undertaking them now and in the future. The research cannot be done without processing personal data, but processing does not override the data subject's interests.

### 3 How will personal data be obtained?

NFER will initially obtain personal data of programme staff from Generation UK. NFER will then collect data from these staff via online individual interviews.

Participation in all evaluation activities is entirely voluntary.

### 4 What personal data is being collected by this project?

- Personal data on Generation UK programme staff participating in this evaluation will include the collection of: names, contact details and roles which will be shared with NFER by Generation UK for staff providing consent to participate and share this information. This will include data for Generation UK staff involved in programme delivery including programme managers, recruiters, assessors, trainers and support staff
- Programme staff will also be asked for factual data and opinions on programme delivery via interviews. This will include: facts about the programme intentions such as aims, referral processes, recruitment and selection, delivery and intended outcomes, as well as views on progress and effectiveness of delivery. It will also include the collection of management information and outcomes data.

### 5 Who will personal data be shared with?

For the purposes of the evaluation, Generation UK will share with NFER data on programme staff. Any personal data shared between Generation UK and NFER will be shared via NFER's secure portal. Data will not be shared with any other parties.

Microsoft Teams will be used to conduct, record and transcribe virtual interviews. The privacy notice for Microsoft Teams is available here: [Microsoft Privacy Statement – Microsoft privacy](#)

NFER will produce an internal report for the Youth Futures Foundation (the evaluation commissioner) and Generation UK. No individual will be identified in NFER's report. All of the findings from the evaluation will only be shared in anonymised form.

### 6 Is personal data being transferred outside the UK?

NFER only stores personal data in the UK.

When Microsoft Teams is used for online interviews, data is processed in the UK-based data centres. However, in some circumstances, they may fall back to EU data centres. Any transfer is safeguarded by UK adequacy regulations.

## 7 How long will personal data be retained?

The NFER will delete any personal data within one year of publication of the final report for the trial, which is scheduled for December 2028. The deletion process is currently planned for December 2029.

## 8 What are my rights with respect to personal data?

NFER handles personal data in accordance with the rights given to individuals under data protection legislation. Under certain circumstances data subjects have the right:

- to request access to information that is held about them (a data subject access request).
- to have personal data rectified if it is inaccurate or incomplete.
- to request the deletion or removal of personal data where there is no compelling reason for its continued processing.
- to restrict processing of personal data (for example, permitting its storage but no further processing).
- to object to processing
- to data portability
- not to be subject to decisions based purely on automated processing where it produces a legal or similarly significant effect.

We may need to request specific information from you to help us confirm your identity and ensure your right to access the information (or to exercise any of your other rights). This helps us ensure that personal information is not disclosed to any person who has no right to receive it.

To exercise any of these rights, please contact the NFER's Compliance Officer at [compliance@nfer.ac.uk](mailto:compliance@nfer.ac.uk).

Although we value your participation in this evaluation and its contribution to important findings, you can withdraw from the evaluation activities at any time. If you withdraw, unless otherwise instructed, we will use any data we have collected up to that point in our analysis. If at any time you wish to withdraw from the evaluation activities, or withdraw your data or correct errors in it, please contact: [PEVTrresearch@nfer.ac.uk](mailto:PEVTrresearch@nfer.ac.uk)

## 9 Who can I contact about this project?

NFER is responsible for the day-to-day management of the evaluation. Please contact the evaluation team at: [PEVTrresearch@nfer.ac.uk](mailto:PEVTrresearch@nfer.ac.uk)

If you have a concern about the way this project processes personal data, we request that you raise your concern with us in the first instance (see details above). If you remain dissatisfied, you can contact the Information Commissioner's Office, the body responsible for enforcing data protection legislation in the UK, at <https://ico.org.uk/concerns/>.

Further information on this project, including information sheets and privacy notices can be found [here](#).

## 10 Updates

We keep this privacy notice under review to make sure it is up to date and accurate. Any changes will be noted. The date when this privacy notice was last updated is shown in the footer at the bottom of this document.
